MUHAMMAD ABDULLAH

Full-Stack Web Developer
mabdullahdev01@gmail.com | Abbottabad, Pakistan | LinkedIn | GitHub | Portfolio

SUMMARY

Full-stack developer building production web applications with Next.js, React, Node.js, NestJS, PostgreSQL, Prisma, and TypeScript. Delivered AUXIO One, a multi-tenant SaaS platform for an Australian disability-services client and shipped multiple internal products during a 5-month role at Firnas. Focused on clean architecture, secure authentication, and maintainable REST APIs.

EXPERIENCE

Full-Stack Developer — Firnas *5 months*
Next.js, React, Redux Toolkit, Tailwind CSS, Node.js, Express, PostgreSQL, MongoDB

- Built a Document Generator for invoices, experience letters, and business proposals with multiple templates, live preview, and PDF export.
- Built Fleet Manager, a fleet management app for drivers, vehicles, routes, trips, fuel, accidents, and compliance documents, with separate admin and driver portals.
- Implemented secure authentication, password reset, approval workflows, and expiry notifications across these products.
- Developed the company's official website.

Full-Stack Developer — AUXIO One (Freelance, Australian Client) *Freelance*
Next.js, NestJS, PostgreSQL, Prisma, TypeScript

- Built a multi-tenant SaaS platform that lets disability service providers manage organizations, teams, and participants.
- Implemented role-based access control, module-based permissions, and participant onboarding through scalable REST APIs.

PROJECTS

E-Commerce Web Platform *Personal Project*
Next.js, Node.js, MongoDB, Cloudinary, JWT

- Built a full-stack store with a dynamic product catalog, shopping cart, JWT authentication, and an AI-powered chatbot.
- Integrated Cloudinary for image handling and exposed RESTful APIs for client-server communication.

EDUCATION

BS Software Engineering — COMSATS University Islamabad, Abbottabad Campus *2023 – Present*
CGPA: 3.5/4.00

FSc Pre-Engineering — The Peace Group of Schools & Colleges, Mansehra *2020 – 2022*
Score: 88%
